The Fund

Africa Select Equity Fund (SICAV) p.l.c. is a collective investment scheme established as a multi-class investment company with variable share capital (SICAV) with limited liability registered under the laws of Malta and licensed by the MFSA under the ISA.

The Fund's constitution is set out in its Memorandum and Articles of Association. The Fund's objects, as set out in its Memorandum of Association, are unrestricted and include the carrying on of the business of an investment company.

The Fund qualifies as a 'Maltese UCITS' in terms of the UCITS Regulations.

Investment Objectives

The investment objective of the fund is to provide long-term capital appreciation to investors. The fund will aim to generate high risk-adjusted returns by investing in equity shares of companies that derive at least fifty percent (50%) of their revenues, profits, assets, or net asset value from Africa, excluding South Africa.

The fund may invest in securities of issuers traded on African stock exchanges, as well as securities traded in markets outside of Africa, provided that the economic footprint remains mostly derived from Africa (as defined in the criteria above).

The minimum holding amount for each Class A Share is fifty thousand U.S. Dollars (US\$50,000).

The minimum holding amount for each Class B Share is fifty thousand Euro (€50,000).

Possible Additional Classes

The Fund may, in due course, issue additional classes of Shares, which may be designated in other currencies. The issue of additional classes of shares shall be subject to the prior approval of the MFSA.

Return Expectations

The objective of the Fund is to generate high risk-adjusted returns for fund investors, exceeding the return of the Benchmark. No assurances can be given that the Investment Manager's return objectives will be achieved.

Currency Management

A significant proportion of the Fund's assets would be invested in securities denominated in currencies other than the USD. Prices of assets in currencies other than the USD shall be calculated based on the Funds' NAV in USD applying the currency exchange rate used by the Fund for pricing the underlying securities on the Valuation Day.

Fund Distributions

Investor Shares are accumulating and therefore no dividends shall be distributed.

Placement Agents

The Fund acts as the primary placement agent for the Investor Shares it issues. However, the Investment Manager may at its discretion appoint additional placement agents. Such placement agents may be paid a portion of the fees received by the Investment Manager, but no additional fees will be charged to the Fund for the services of such placement agents.

Publication of Net Asset Value

The Net Asset Value per Share, calculated as at each Valuation Day, will ordinarily be made available via email by the Administrator of the Fund.

Redemption

Redemptions may be restricted if the gross amount of the redemption requests of the Investor Shares for a relevant Redemption Day is greater than twenty percent (>20%) of the NAV of the Fund for such Redemption Day. Redemptions may also be restricted if the redemption request from an individual account for a relevant Redemption Day is greater than ten percent (>10%) of the NAV of the Fund for such Redemption Day.

The Administrator will not remit redemption proceeds if an investor is not considered to be compliant with all the necessary Anti-Money Laundering legislation and regulations specified below. Nor will the Administrator remit any payment to a third-party bank account.

Dilution Levy

The Fund operates on a single price and may suffer a reduction or dilution in value as a result of the transaction costs incurred in dealing in its underlying investments and of any spread between the buying and selling prices of such investments caused by subscriptions, redemptions and/or switches in and out of the Fund. In order to counter this dilution and to protect the interest of the holders of Investor Shares, the Investment Manager will apply a Dilution Levy, which shall not exceed three percent (3%) of the Fund's NAV.

The Dilution Levy shall consist of a charge intended to reflect the transaction costs stemming from large investor inflows or outflows. The Dilution Levy is intended to protect Shareholders against the adverse performance impact of applicants for Investor Shares or exiting Shareholders. Additional charges may therefore be levied on investors subscribing for or redeeming Investor Shares in the Fund, intended to offset any potential effect on the fund NAV resulting from the additional transaction costs.

The Dilution Levy amount would be estimated by the Investment Manager based on the anticipated transaction costs pertinent to the subscription or redemption amount exceeding five percent (5%) of the Fund's underlying assets. The associated costs are defined as being explicit or implicit in nature. Explicit costs are the direct trading costs such as brokerage fees, as well as taxes, levies and stamp duties. Implicit costs include the bid-ask spreads and the market impact caused by liquidity constraints of the underlying investments.

Liquidity Risk Management

The Fund intends to manage liquidity risk closely. This will be accomplished by holding a cash buffer to cover fund expenses as they fall due, as well as managing the liquidity of assets and liabilities. This will be done by ensuring that the Fund only invests in highly-liquid to liquid assets. A cap on the Fund's size will be implemented to ensure that the performance is maximized and that the investment universe is not restricted.

Confirmation of Ownership

A Shareholder shall have his/her/its title to Shares evidenced by having his/her/its name, address and the number of Shares held by him/her/it entered in the Register which shall be maintained in the manner required by the applicable law.

Accounting Currency

For the purposes of the compilation of the annual financial statements of the Company, the reporting currency for the Company shall be the Accounting Currency, that is U.S. Dollar (US\$).

4. Investment Policies and Restrictions

Investment Policies

The objective of the Fund is to maximize the returns to Shareholders by implementing a disciplined investment process based on bottom-up, research-driven stock selection. The Investment Manager will conduct exhaustive research, entailing regular site visits and management contact as part of the due diligence process. The Investment Manager considers sustainability criteria in the context of the investment policy of the Fund and its risk management procedures.

ESG factors are integrated into the valuation process of companies, focusing on relevance and materiality. ESG risk would not in itself prevent the Fund from making an investment. Instead, sustainability risk forms part of the Fund's overall risk management processes, and is one of many risks which may, depending on the specific investment opportunity, be relevant to the Fund's determination of risk. The Pre-Contractual Document set out under Schedule 1, describes the manner in which the Fund integrates ESG risks in its investment policy and describes the likely effects of sustainability risks on the returns of the Fund. The Pre-Contractual Document set out under Schedule 1, also provides information on the principal adverse impacts on sustainability factors indicated by the Fund.

The Fund shall promote, among other characteristics, environmental or social characteristics, or a combination of those characteristics, provided that the companies in which the underlying investments are made follow good governance practices. While the Fund may invest in sustainable investments, it does not have sustainable investment as its core objective in a way which meets the specific criteria contained in Article 9 of the SFDR.

The Fund will seek exposure to a selection of high quality, materially undervalued companies, providing the highest expected return with a low downside risk and a sufficient margin of safety. The portfolio turnover is expected to be low, and the investment philosophy is long-term orientated, which allows the Fund to capitalize on opportunities arising from short-term mispricings in the markets.

Risk will be constantly monitored and diligently managed to protect fund investors at all times. Investment and sustainability risks are managed at a company level (risks reflected in the valuation process), while concentration and liquidity risks will be managed at the portfolio level (weight allocation limits). The Fund will be subject to the investment concentration limits as set out in the prospectus. Currency risk will be managed bottom-up (at a company level); the fund does not intend to use currency hedging.

The Fund is a responsible active investor seeking to play a key role in encouraging and promoting best practice for ESG standards. The Fund will engage with companies' senior management and the Board when deemed necessary to address specific concerns, aiming to unlock value for Shareholders over the long-term. The Fund will not seek control or board representation for any company in which it invests.

The Fund may:

- invest in listed securities dealt on regulated markets;
- under limited circumstances hold stock options or warrants resulting from merger & acquisition activity involving an existing investment; and/or

- invest in recently issued transferable securities to be dealt on a regulated markets approved by MFSA or indicated in this Prospectus or in the Fund's Constitutional Documents, as indicated under Schedule 2, within twelve (12) months (pre-IPOs).

Furthermore, the Fund will invest in Transferable Securities listed on recognised stock exchanges in Africa and other global exchanges. The Fund will utilise a network of reputable Brokers to be able to execute transactions on behalf of the Shareholders. The choice of Brokers will be based on a "best execution policy", taking into account other factors such as experience and expertise of any given Broker in a specific sector/market.

Changes to the investment objectives of the Fund shall be notified to investors in advance of the change.

The change in the investment objectives shall only become effective after all redemption requests received during such notice periods have been satisfied.

Restrictions

Investment Restrictions

The investment restrictions applied to the Fund under the MFSA Rules and Licence Conditions are set out below. These are, however, subject to the qualifications and certain exemptions contained in the MFSA Rules and in the Licence Conditions.

The Directors may, from time to time, impose such further investment restrictions as shall be compatible with or in the interest of the Shareholders, including in order to comply with the laws and regulations of the countries where Shareholders are resident.

Breaches of Investment Restrictions

The following shall apply in the event of inadvertent breach of the Fund's investment restrictions:

- i. without prejudice to the duty of the Fund to comply with its investment restrictions and to ensure that such restrictions are not contravened as a direct result of any acquisition of its underlying assets, if one or more of a Fund's investment restrictions are at any time contravened for reasons beyond the control of the Investment Manager or the Fund or as a result of subscription rights, the Investment Manager or the Fund shall take such steps as are necessary to ensure a restoration of compliance with such restriction(s) as soon as is reasonably practicable having regard to the interests of the unit-holders and, in any event, within the period of six (6) months beginning on the date of discovery of the contravention of such restriction(s);
- ii. forthwith upon the Depositary becoming aware that circumstances of a kind described above have arisen, the Depositary be required to take such steps as are necessary to ensure that the Fund or Manager comply with the requirement imposed by (i) above; and
- iii. a contravention of an investment restriction which may arise due to the circumstances outlined in (i) above is not considered a breach of a licence condition and is not subject to the requirement to notify the MFSA. However, where the contravention is not remedied by the Investment Manager or Fund within the maximum six-month period stipulated in (i) above, a breach of the applicable MFSA rules is deemed to arise and the relevant notification requirements apply.

B.11 The Fund may hold ancillary liquid assets irrespective of its investment objective and policy.

Investments in Transferable Securities and Money Market Instruments

B.12 The Fund may not invest more than ten per cent (10%) of its assets in Transferable Securities and Money Market Instruments other than those referred to in paragraph A.1 above.

B.13 The Fund shall not invest more than five per cent (5%) of its assets in Transferable Securities or Money Market Instruments issued by the same body.

B.14 This five per cent (5%) limit may be raised to a maximum of ten per cent (10%) of the Fund’s assets. Provided that the total value of securities held in bodies in which it invests more than five per cent (5%), is less than forty per cent (40%). This limitation does not apply to deposits and OTC-derivative transactions made with financial institutions subject to prudential supervision.

B.15 For the purposes of determining the forty per cent (40%) limit, the Transferable Securities and Money Market Instruments referred to in the next two paragraphs below of this section shall not be taken into account.

B.16 The limit of five per cent (5%) in paragraph B.15 may be raised to a maximum of thirty-five per cent (35%) if the Transferable Securities or Money Market Instruments are issued or guaranteed by a Member State, or by its local authorities, by a non-Member State or by public international bodies to which one or more Member States belong. Provided that this limit may be waived in accordance with paragraph B.18.

office in a Member State and is subject by law to special public supervision designed to protect bondholders. In particular, sums deriving from the issue of these bonds shall be invested in conformity with the law in assets which, during the whole period of validity of the bonds, are capable of covering claims attaching to the bonds and which, in the event of failure of the issuer, would be used on a priority basis for the reimbursement of the principal and payment of the accrued interest. Provided that when the Fund invests more than five per cent (5%) of its assets in the bonds referred to above and issued by one issuer, the total value of these bonds may not exceed eighty per cent (80%) of the value of the assets of the Fund.

- B.18 By way of derogation from paragraphs B.13 to B.17, B.29 and B.30, the MFSA may authorize the Fund to invest in accordance with the principle of risk-spreading up to hundred per cent (100%) of its assets in different Transferable Securities or Money Market Instruments issued or guaranteed by any Member State, its local authorities, a non-Member State or public international bodies of which one or more Member States are members, provided it is satisfied that unit-holders in the Fund have protection equivalent to that of unit-holders in a Fund complying with the limits laid down in paragraphs B.13 to B.17, B.29 and B.30. The following conditions shall apply:
- a. the Fund shall hold securities from at least six different issues, but securities from any one issue may not account for more than thirty per cent (30%) of its total assets;

Deposits with Credit Institutions

- B.19 Not more than twenty per cent (20%) of the assets of the Fund shall be kept on deposit with any one body.

Risk Management Process

- B.20 The Fund or its Investment Manager shall use a risk management process, which is adapted to the relevant risk-profile of the Fund, enabling it to monitor, and measure and manage at any time as frequently as appropriate, all material risks relating to the Fund. In particular, the Fund or its Investment Manager shall not solely or mechanistically rely on credit ratings issued by credit rating agencies as defined in Article 3(1) (b) of Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies, for assessing the creditworthiness of the UCITS assets. Upon request of an investor, the Fund or its Manager on its behalf shall provide supplementary information relating to the quantitative limits that apply in the risk management of the Fund, the methods chosen to this end and to the recent evolution of the main instrument categories' risks and yields.

- B.21 The following details of the risk management process shall be notified by the Fund or its Investment Manager to the MFSA in advance, along with any material alteration:
- i. the methods for estimating risks in derivative transactions; and
 - ii. the types of Financial Derivative Instruments to be used within the Fund together with their underlying risks and any relevant quantitative limits.
- B.22 The risk management process should take account of the investment objectives and policies of the Fund as stated in the most recent Prospectus.
- B.23 The risk management process and any material alteration should be agreed in advance with the Depositary and the MFSA.
- B.24 The Fund or its Investment Manager is expected to demonstrate more sophistication in its risk management process for a scheme with a complex risk profile than for one with a simple risk profile. In particular, the risk management process should take account of any characteristic of non-linear dependence in the value of a position to its underlying.
- B.25 The Fund should take reasonable care to establish and maintain such systems and controls as are appropriate to its business.
- B.26 The risk management process should enable the analysis required by paragraph B.20 to be undertaken at least daily or at each Valuation Point whichever is the more frequent
- B.27 The Fund or its Investment Manager shall employ a process for accurate and independent assessment of the value of any OTC-derivative instruments which are made use of.

Uncovered Sales

- B.28 The Fund may not carry out uncovered sales of Transferable Securities, Money Market Instruments or other financial instruments referred to in paragraphs A.1 (v), (vii) and (viii). Uncovered sales are all transactions in which the Fund is exposed to the risk of having to buy securities at a higher price than the price at which the securities are delivered, thus making a loss, and the risk of not being able to deliver the underlying for settlement at the time of the maturity of the transaction.

General Restrictions – Single Issuer Exposures

- B.29 Notwithstanding the individual limits laid down in paragraphs B.13 and B.19, and SLC 5.14, the Fund may not combine:
- investments in Transferable Securities or Money Market Instruments issued by; and
 - deposits made with; and
 - counterparty exposures arising from OTC-derivative transactions undertaken with; and
 - other exposures arising from OTC-derivative transactions relating to;
a single body in excess of twenty per cent (20%) of its assets.
- B.30 The limits provided for in paragraphs B.13, B.14, B.16, B.17, B.19, B.29 and SLC 5.14 may not be combined, and thus investments in Transferable Securities or Money Market Instruments issued by the same body or in deposits or Financial Derivative Instruments made with this body carried out in

accordance with the above-mentioned paragraph shall under no circumstances exceed in total thirty-five per cent (35%) of the assets of the Fund.

Companies which are included in the same group for the purposes of consolidated accounts as defined in Directive 83/349/EEC in accordance with recognized international accounting rules, are regarded as a single body for the purpose of calculating the limits contained in paragraphs B.13 to B.17, B.19, B.29 and B.30, and SLC 5.14.

Subject to approval by MFSA, the Fund may effect a cumulative investment in Transferable Securities and Money Market Instruments within the same group up to a limit of twenty per cent (20%).

Investments in Shares and Bonds for Tracking an Index

B.31 Without prejudice to the limits laid down in paragraphs B.38 to B.40, the limits laid down in paragraphs B.13 and B.14 may be raised to a maximum of twenty per cent (20%) for investment in shares and/or debt securities issued by the same body, where the investment policy of the Fund as stated in the most recently published Prospectus, is to replicate the composition of a certain stock or debt securities index which is recognised by the MFSA, on the following basis:

- i. its composition is sufficiently diversified in that it complies with the risk diversification rules in this investment limit;
- ii. the index represents an adequate benchmark for the market to which it refers, in that the index provider uses a recognised methodology which generally does not result in the exclusion of a major issuer of the market to which it refers; and
- iii. it is published in an appropriate manner, in that the index fulfils the following criteria:
 - it is accessible to the public; and
 - the index provider is independent from the Fund.

Point iii. shall not preclude index providers and the Fund forming part of the same economic group, provided that effective arrangements for the management of conflicts of interest are in place.

The above twenty per cent (20%) limit may, subject to MFSA approval, be raised to a maximum of thirty-five per cent (35%), where it proves to be justified by exceptional market conditions, in particular in regulated markets where certain Transferable Securities or Money Market Instruments are highly dominant. The investment up to this limit is only permitted for a single issuer. The reference in this investment limit to "*replicate the composition of a certain stock or debt securities index*" shall be understood as a reference to the replication of the composition of the underlying assets of an index, including the use of Financial Derivative Instruments or other techniques and instruments as referred to in SLC 5.18.

Investments in Other UCITS and/or Other Collective Investment Schemes

- B.32 The Fund may acquire the units of a UCITS and/or other collective investment schemes referred to in paragraph A.1 (v), provided that no more than twenty per cent (20%) of its assets are invested in units of a single UCITS or other collective investment scheme.
- B.33 Investments made in units of collective investment schemes other than UCITS, may not exceed, in aggregate, thirty per cent (30%) of the assets of the Fund.
- B.34 Subject to MFSA approval, when the Fund has acquired units of UCITS and/or other collective investment schemes, the assets of the respective UCITS or other collective investment schemes do not have to be combined for the purposes of the limits laid down in paragraphs B.13 to B.17, B.19, B.29 and B.30, and SLC 5.14.
- B.35 When the Fund invests in the Units of another UCITS and/or other collective investment schemes that are managed, directly or by delegation, by the Investment Manager or by any other company with which the Investment Manager is linked by common management or control, or by a substantial direct or indirect holding, the Investment Manager or other company may not charge subscription or redemption fees on account of investment schemes.
- B.36 Where a commission is received by the Investment Manager by virtue of an investment in the Units of another scheme, that commission shall be paid into the property of the Fund.
- B.37 Where the Fund invests a substantial proportion of its assets in other UCITS Schemes and/or collective investment schemes it shall disclose in its Prospectus, the maximum level of the management fees that may be charged both to the Fund itself and to the other UCITS Schemes and/or collective investment schemes in which it intends to invest. In its annual report, it shall indicate the maximum proportion of management fees charged both to the Fund itself and to the UCITS and/or other collective investment scheme in which it invests.
- B.38 The Fund or its Investment Manager, taking into account all of the schemes which the latter manages, shall not acquire any shares carrying voting rights which would enable it to exercise significant influence over the management of the issuer.
- B.39 The Fund may acquire no more than:
- i. ten per cent (10%) of the non-voting shares of any single issuing body;
 - ii. ten per cent (10%) of the debt securities of any single issuing body;
 - iii. twenty-five per cent (25%) of the units of any single UCITS and/or other collective investment schemes within the meaning of Article 1(2)(a) and (b) of Directive 2009/65/EC; and
 - iv. ten per cent (10%) of the Money Market Instruments of any single issuing body.

The limits laid out in (ii), (iii) and (iv) above, may be disregarded at the time of acquisition if at that time, the gross amount of the debt securities or of the Money Market Instruments, or the net amount of the securities in issue, cannot be calculated.

- B.40 Subject to MFSA approval, paragraphs B.38 and B.39 may be waived as regards:

- i. Transferable Securities and Money Market Instruments issued or guaranteed by a Member State or its local authorities;
- ii. Transferable Securities and Money Market Instruments guaranteed by non-Member States;
- iii. Transferable Securities and Money Market Instruments issued by public international bodies of which one or more Member States are members;
- iv. shares held by the Fund in the capital of a company incorporated in a non-Member State investing its assets mainly in securities of issuing bodies having their registered offices in that State, where, under the legislation of that State, such a holding represents the only way in which the Fund can invest in the securities of issuing bodies of that State. - (ii) the safekeeping of the assets of the Fund, which means (a) for financial instruments that can be held in custody: holding in custody all financial instruments that can be registered in a financial instruments account opened in the Depositary’s books and all financial instruments that can be physically delivered to the Depositary (if any), and (b) for other assets: verifying the ownership of the Fund and maintaining a record of such other assets;
- (iii) the following oversight duties:
 - (a) to ensure that the sale, issue, re-purchase, redemption and cancellation of shares of the Fund are carried out in accordance with the requirements prescribed by the MFSA, if any, applicable to the Fund, and the memorandum and articles of association of the Company;
 - (b) to ensure that the value of the shares of the Fund is calculated in accordance with the provisions of the memorandum and articles of association of the Company;
 - (c) to carry out the instructions of the Investment Manager or the Company, unless they conflict with the requirements prescribed by the MFSA, if any, applicable to the Fund, or the memorandum and articles of association of the Company;
 - (d) to ensure that in transactions involving the Fund’s assets any consideration is remitted to the Company within the usual time limits;
 - (e) to ensure that the Fund’s income is applied in accordance with the memorandum and articles of association of the Company.

The Company and the Investment Manager are required to ensure that all assets of the Fund are entrusted to the Depositary for safekeeping, and the Depositary has accepted to perform the safekeeping function in respect of all the Fund's assets, in accordance with the Depositary Agreement. The Fund and the Investment Manager have agreed with the Depositary not to invest in or hold any types of financial instruments and other assets that are not listed in the relevant Annexes to the Depositary Agreement.

The Depositary is entitled to receive fees and reimbursement of expenses, out of the assets of the Fund, for the provision of its services.

The Depositary shall appoint Citibank, a firm duly licenced by the U.K.'s Financial Conduct Authority, bearing the registration number FC001835 and having its registered office situated at Citigroup Centre, 25 Canada Square, London, E14 5LB, United Kingdom and shall entrust assets of the Fund for safekeeping with them, and generally, to delegate all or part of its services and functions (other than the cash flow monitoring function and oversight duties referred to in points (i) and (iii) above) to third parties, subject to the terms and conditions stipulated in the Depositary Agreement. A description of the safekeeping functions delegated by the Depositary, the list of delegates and sub-delegates for the performance of the safekeeping functions, and information on any conflicts of interest that may arise from such a delegation will be provided to investors, by the Fund or the Investment Manager, upon request.

The Depositary is liable to the Fund, and to shareholders of the Fund, for the loss of financial instruments held in custody by the custodian or a third party to whom the custody of financial instruments held in custody has been delegated. In the case of such a loss of a financial instrument held in custody, the Depositary is required to return a financial instrument of identical type or the corresponding amount to the Fund without undue delay. The Depositary will not be liable, however, if it can prove that the loss has arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary.

Furthermore, the Depositary is liable to the Fund, and to Shareholders of the Fund, for other losses (i.e. other than the loss of financial instruments held in custody, as mentioned above), suffered by them as a result of the Depositary's negligent or intentional failure to properly fulfil its obligations pursuant to the relevant provisions of the Investment Services Act, the Investment Services Act (Custodians of Collective Investment Schemes) Regulations (S.L. 370.32) and Investment Services Rules for Investment Services Providers issued by the MFSA, as applicable to the Depositary.

The Depositary's liability is not affected by any delegation of its functions referred to above.

The Investment Services Act (Custodians of Collective Investment Schemes) Regulations provide that Shareholders may invoke the liability of the Depositary directly or indirectly through the UCITS or the Investment Manager, provided that this does not lead to a duplication of redress or to unequal treatment of the Shareholders. If any Shareholder of the Fund intends to invoke the liability of the Depositary, it must notify the Company and the Investment Manager of its intention to invoke the liability of the Depositary, and the Company and the Investment Manager will be required to ensure that the exercise of any action or claim by one or more shareholders does not lead to unequal treatment of the other shareholders.

The Depositary Agreement contains provisions whereby the Fund agrees to indemnify the Depositary (out of the assets of the Fund) for actions, proceedings, claims, loss or damages, costs, demands and expenses (including legal and professional expenses) which may be brought against, suffered or incurred by the Depositary in relation to the performance of the Depositary's services, duties and functions, and the

insolvency, acts or omissions of the Fund, Investment Manager or any other service provider, delegate or third party, except where and to the extent that the Depositary is liable for the same in terms of the Depositary Agreement.

The Depositary Agreement may be terminated by the Depositary or by Fund and the Investment Manager, by giving at least ninety (90) days' notice, and on certain other grounds set out in the Depositary Agreement.

The Depositary is not responsible for the valuation of the assets of the Fund, the calculation of the net asset value of the Fund or any of its shares, the calculation or verification of any fees or expenses payable to the Directors, the Investment Manager, the Administrator or any other service provider (except for the verification of the calculation of the Performance Fee in terms of the Investment Services Act (Performance Fees) Regulations (S.L. 370.12)), or the marketing or distribution of the shares.

The Depositary is not responsible for the contents of the Prospectus nor for the approval thereof.

Information regarding the Depositary, its duties, conflicts of interest and delegated safekeeping functions, shall be made available to the Shareholders on request.

Pursuant to an administration agreement (the “**Administration Agreement**”) entered into between the Fund, the Investment Manager and Apex Fund Services (Malta) Limited, the latter has been appointed as the administrator, registrar and transfer agent of the Fund.

The Administrator is responsible under the overall supervision of the Investment Manager and the Board for, inter alia, the general administration of the Fund, which includes keeping the register of Shareholders, the proper book-keeping of the Fund, arranging for the issue and redemption of Shares, and calculating the Net Asset Value.

The Administrator is a private limited liability company registered and incorporated in Malta with company registration number C 42646 and having its registered office at Quad Central, Q3 - Level 9, Triq L-Esportaturi, Zone 1, Central Business District, Birkirkara CBD 1040, Malta. Apex forms part of the Apex Group of fund administrators. The Administrator is regulated by the MFSA and is recognised to provide fund administration services by the MFSA in terms of the Act. The Administrator is entitled to be indemnified by the Fund and/or the Investment Manager against all liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements of any kind or nature whatsoever (other than those resulting from the fraud, gross negligence or wilful default on the part of the Administrator) which may be imposed on, incurred by or asserted against the Administrator in performing its obligations or duties.

The Administrator shall be entitled, without verification, further enquiry or liability on the Administrator’s part, to rely on pricing information in relation to specified investments held by the Fund which is provided by price sources stipulated in the Administration Agreement or, in the absence of any such stipulated price sources, any price sources on which the Administrator may choose to rely. Without prejudice to the generality of the foregoing, the Administrator shall not be responsible or liable to any person for the valuation or pricing of any assets or liabilities of the Fund (save as provided in the Administration Agreement) or for any inaccuracy, error or delay in pricing information supplied to the Administrator.

In the absence of readily available independent pricing sources, the Administrator may rely solely upon any valuation or pricing information (including, without limitation, fair value pricing information) about any such assets or liabilities of the Fund which is provided to it by: (i) the Fund, (ii) the Investment Manager; and/or (iii) any value, third party valuation agent, intermediary or other third party which in each such case is appointed or authorised by the Fund and/or the Investment Manager to provide valuations or pricing information of the assets or liabilities of the Fund to the Administrator. The Administrator shall not be liable for any loss suffered by the Fund, and/or third parties by reason of any incorrect or inaccurate valuation of the underlying assets and/or error in the price provided with respect to the value of the underlying assets.

Furthermore, the Administrator shall not be responsible for the selection, oversight or monitoring of any external agent or valuer appointed by the Fund and shall not be liable for any losses incurred by any investor and/or third parties due to any act or omission of such external agent or valuer.

The Administrator in no way acts as guarantor or offeror of the Shares or any underlying investment. The Administrator is a service provider to the Fund and has no responsibility or authority to make investment decisions, or render investment advice, with respect to the assets of the Fund. The Administrator is not responsible for, and accepts no responsibility or liability for any losses suffered by the Fund and/or the

Investment Manager or any investors in the Fund as a result of any failure by the Investment Manager to adhere to the investment objective, policy, investment restrictions, borrowing restrictions or operating guidelines.

The Administrator shall not be liable or otherwise responsible for any loss suffered by any person by reason of: (i) any act or omission of any person prior to the commencement date of the Administration Agreement; (ii) any defect, error, inaccuracy, breakdown or delay in any product or service provided to the Administrator by any third party service provider; and (iii) any inaccuracy, error or delay in information provided to the Administrator by or for the Fund.

The Administrator shall not otherwise be liable for any loss to the Fund and/or the Investment Manager or any other person unless direct loss is sustained as a result of its fraud, gross negligence or willful default.

Under the terms of the Administration Agreement, the Administrator is able to delegate certain of its functions and duties to the Administrator's affiliates.

The appointment of the Administrator may be terminated without cause by not less than ninety (90) business days' notice in writing.

The Administrator is not responsible for the preparation or issue of this document other than with respect to the description above in respect of the Administrator. The Administration Agreement is regulated by the laws of Malta and subject to the jurisdiction of the Maltese Arbitration Court.

The Administration Agreement is regulated by the Laws of Malta and in the event of any controversy, disagreement, dispute or claim which may arise out of or in connection with the Administration Agreement, the matter shall be settled by arbitration in Malta, in accordance with the provisions on domestic arbitration of the Malta Arbitration Act and the Arbitration Rules of the Malta Arbitration Centre.

The Administrator is not responsible for the preparation or issue of this Offering Memorandum other than with respect to the description above in respect of the Administrator.

11. Conflicts of Interest

As mentioned in the Section entitled “*Risk Factors*” below, potential investors should be aware that there may be situations in which each and any of the Directors, the Investment Manager, the Depositary, the Administrator and their respective delegates including investment advisors, Sub-Investment Managers, equity analysts, risk managers and sub-custodians, where applicable (together the “**Interested Parties**”), could encounter a conflict of interest in connection with the Fund. Should a conflict of interest actually arise, the Interested Parties will endeavour to ensure that it is resolved fairly. In particular, potential investors should be aware of the following:

- (1) Certain Directors of the Fund or entities in which they may have a financial or managerial interest, may sell Investor Shares of the Fund and receive a portion of each, or all, of the brokerage commissions, transaction charges, advisory fees or management fees paid by the Fund as attributable to such Investor Shares. Thus, to the extent of such purchases, such Directors may have a conflict of interest between their duty to act for the benefit of the Shareholders in limiting expenses of the Fund and their interest in receiving such fees and/or commissions.
- (2) The Investment Manager may make investments for other clients without making the same available to the Fund where, having regard to their obligations under the relevant Investment Management Agreement, the Investment Manager considers that it is acting in the best interests of the Fund, so far as reasonably practicable having regard to its obligations to other clients.
- (3) The Investment Manager, the Depositary and the Administrator may carry out such functions for other investment companies engaging in the same activities as the Fund.
- (4) The Company may effect the sale or purchase of investments through a Broker who is associated with the Investment Manager or the Depositary, provided that the amount of commission payable to such Broker is not in excess of that which would have been payable had the sale or purchase been effected through a Broker who is not so associated.
- (5) Certain Directors of the Fund may also be involved in entities providing services to the Fund. However, all the Directors have fiduciary duties to the Fund and consequently have exercised and will exercise good faith and integrity in handling all the Fund’s affairs.
- (6) In addition, the Investment Manager may invest in funds and/or companies where a person/entity with close links to the Investment Manager is also a shareholder, advisor or an investment director. There will be times where a person/entity with close links to the Investment Manager will act simultaneously also as an advisor to the company looking for financing, or their members may be part of the board of the client company. Notwithstanding, the Investment Manager and all the Directors have fiduciary duties to the Fund and consequently have exercised and will exercise good faith and integrity in handling all the Fund’s affairs.
- (7) Certain Directors may have a direct or indirect beneficial interest in the Founder Shares or in the allocations which may be payable from time to time to the holders of Founder Shares.

In addition to the over, it should be noted that two of the Directors, namely Alberto Alsina Gonzalez and Saâd Bendidi, are directors of the Investment Manager, while Omar Fahmy acts as a Portfolio Manager to the Investment Manager and is entrusted with the management of the Fund’s underlying assets.

The Depositary generally uses the following service providers for the safekeeping of financial instruments that can be held in custody:

Citibank, N.A., Citigroup Centre, Canada Square, Canary Wharf, London, E14 5LB

It should be stressed that any third party appointed service providers shall be independent and unrelated to the Depositary. The Depositary shall deal with them on an arm's length basis and would not receive any commissions or inducements from them in respect of securities held with them on behalf of the Fund, thereby minimising the risk of any conflict of interest arising from such delegations.

12. Handling of Complaints

The Fund shall have in place a Complaints Management Function to enable complaints to be investigated fairly and to identify or mitigate any possible conflicts of interest. The Complaints Management Function shall be the direct responsibility of the Board of Directors.

The Fund shall grant the Fund's Compliance Officer access to all complaints received. The Fund shall register any complaints it receives in an appropriate manner. In this regard, the Fund maintains a Complaints Register. The Complaints Register shall be made available to the MFSA or any other regulatory authority as is required. The Fund shall follow a standardised procedure when handling and responding to a complaint. The Fund shall ensure that complaints received are analysed regularly to allow the Fund to identify and address any deficiencies in their policies and procedures, which could give rise to potential operational and legal risks. This data shall, as a minimum, cover the number of complaints received, differentiated as appropriate by product or service, as applicable and the cause of the complaint.

The Fund shall ensure that, when handling complaints, it shall abide with any data protection laws including the Data Protection Act (Chapter 586 of the Laws of Malta) and any regulations issued thereunder, and with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) as amended from time to time.

13. Risk Factors

Notwithstanding the investment policy outlined above and discussed herein, investments in the Fund may involve a number of significant risk factors. Prospective investors should carefully consider the following factors, among others, in making their investment decision and should consult their own legal, tax and financial advisors as to all of these risks and an investment in the Fund.

The risk factors set out below represent a non-exhaustive list of risks that investors ought to consider.

General

An investment in the Fund is subject to all risks incidental to investment in securities and other assets, which the Fund may own. These factors include, without limitation, changes in government rules and fiscal and monetary policies, changes in laws and political and economic conditions throughout the world and changes in general market conditions. There can be no guarantee that any profits will be realised by the Fund and, therefore, by the Shareholders. Under certain circumstances, the Fund may be unable to liquidate portfolio investments due to the absence of a liquid market, and consequently, may not be able to redeem Investor Shares.

Management Risk

Any fund is open to the risk of unprofitable outcomes that is losses incurred or profits foregone as a result of what turn out to be poor decisions or to take or not to take certain actions at the right time. At any time certain policies, strategies, investment techniques and risk analysis may be employed for the Fund in order to seek to achieve its investment objective; however, there can never be any guarantee that the desired results will be obtained.

Insufficient Risk Recognition

An investment in the Investor Shares in the Fund involves risks. These risks may include or relate to, among others, equity market, bond market, foreign exchange, interest rate, credit, market volatility and political risks and any combination of these and other risks. Some of these risk factors are briefly discussed below.

Investors should understand the risks associated with an investment in the Investor Shares and should only reach an investment decision after careful consideration with their legal, tax, accounting, financial and other advisors of: (i) the suitability of an investment in the Shares in the light of their own particular financial, fiscal and other circumstances; (ii) the information set out in this Prospectus; (iii) the risks associated with the use by the Fund of derivative techniques (if applicable); (iv) the nature of the Fund's assets; and (v) information set out in the Prospectus.

Investors should recognise that the Investor Shares may decline in value and should be prepared to sustain a substantial loss of their investment in the Investor Shares.

Counterparty Risk

The Fund will be exposed to a credit risk on parties with whom it trades and may also bear the risk of settlement default. In the event of a bankruptcy or other default, the Fund could experience both delays in liquidating the underlying securities and losses, including a possible decline in value of the underlying securities during the period when the Fund seeks to enforce its rights thereto. This will have the effect of reducing levels of capital and income in the Fund and may give rise to a lack of access to income during this period together with the expense of enforcing the Fund's rights.

Credit Risk

Prospective investors should be aware that certain investments might involve credit risk. Bonds or other debt securities held for the Fund involve credit risk represented by the possibility of default by the issuer. This risk may be evidenced by the issuer's credit rating. Securities which are subordinated and/or have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated and/or unsubordinated securities. In the event that any issuer of bonds or other debt securities experiences financial or economic difficulties, this may affect the value of the relevant securities (which may be zero) and any amounts paid on such securities (which may be zero). This may in turn affect the NAV per Share. Stock lending of securities held for the Fund also involves credit risk, being the risk that the securities lent are not recovered and/or that recovery is delayed.

Credit Ratings

The management of the Fund may involve substantial reliance on credit ratings. Credit ratings are assigned by rating agencies such as Standard & Poor's or Moody's. It is important to understand the nature of credit ratings in order to understand the nature of securities. The level of a credit rating is an indication of the probability that (in the opinion of the rating agency) payments will be made on the relevant bond(s) or other obligation(s) to which the credit rating relates. Bonds with a rating of AAA, AA, A or BBB by S&P are generally called "investment grade" bonds, with AAA representing the credit rating of the highest quality. While credit ratings can be a useful tool for financial analysis, they are not a guarantee of quality or a guarantee of future performance in relation to the relevant obligations. Ratings assigned to securities by rating agencies may not fully reflect the true risks of an investment. Ratings may also be withdrawn or revised at any time.

Further to a derogation granted by the MFSA, the Fund may also enter into transactions with Approved Counterparties which are not subject to independent verification of credit worthiness by a credit rating agency; such unrated Approved Counterparties however remain subject to the conditions set out in the definition of Approved Counterparties in the "*Interpretation*" Section above and subject to the due diligence carried out in this respect by the Investment Manager.

Exchange Rates

Investors should be aware that their investment might involve exchange rate risks. For example, the Investor Shares may be denominated in a currency other than the investor's reference currency, which could be the currency of the investor's home jurisdiction and/or the currency in which an investor wishes to receive his monies or in which he prefers to maintain his capital or otherwise that currency to which the investor prefers or requires to be exposed to primarily.

Exchange rate risks may also arise indirectly when the base currency of the investor is the same as that of the Investor Shares, especially if the underlying assets attributed to the Fund are denominated in other currencies. Exchange rates between currencies are determined by factors of supply and demand in the international currency markets, which are influenced by macro economic factors (such as the economic development in the different currency areas, interest rates and international capital movements), speculation and central bank and government intervention (including the imposition of currency controls and restrictions). Fluctuations in exchange rates may affect the value of the Investor Shares. For avoidance of doubt, the Investment Manager does not intend to use hedging techniques to mitigate the exchange rate risk.

Depositary Risk

Country risk linked to the Custody

The Investment Manager may decide from time to time to invest in a country where the Depositary has no correspondent. In such a case, the Depositary will have to identify and appoint after due diligence a local custodian. This process may take time and deprive in the meantime the Investment Manager of investment opportunities.

In the same manner, the Depositary shall assess on an ongoing basis the custody risk of the country where the Fund's assets are safe-kept. The Depositary may identify from time to time a custody risk in a jurisdiction and recommend to the Investment Manager to realise the investments immediately. In doing so, the price at which such assets will be sold may be lower than the price the Fund would have received in normal circumstances, potentially affecting the performance of the Fund.

Central Securities Depositories

In accordance with the UCITS Directive, entrusting the custody of the Fund's assets to the operator of a securities settlement system ("SSS") is not considered as a delegation by the Depositary and the depositary is exempted from the strict liability of restitution of assets. A central securities depository ("CSD") being a legal person that operates a SSS and provides in addition other core services should accordingly not be considered as a delegate of the Depositary. There is however some uncertainty around the meaning to be given to such exemption, the scope of which may be interpreted narrowly by some supervisory authorities, notably the European supervisory authorities.

Delegation of Safekeeping Functions

The Depositary is permitted to delegate its functions and to appoint a qualified Sub-Custodian for the safe keeping of the Fund's Assets. When delegating the safekeeping functions, the Depositary shall exercise due skill, care and diligence in the appointment of the Sub-Custodian, and it shall continue the same in its review and monitoring of the Sub-Custodian. The Depositary shall further ensure that any actual and/or potential conflicts of interest arising from the delegation of the safekeeping functions are properly managed.

Interest Rates

Investors should be aware that an investment in the Investor Shares might involve interest rate risk in that

there may be fluctuations in the interest rates of the currency of denomination of the Fund's assets and/or the Investor Shares in the Fund.

Interest rates are determined by factors of supply and demand in the international money markets, which are influenced by macro economic factors, speculation and central bank and government intervention. Fluctuations in short term and/or long-term interest rates may affect the value of the Investor Shares in a the Fund. Fluctuations in interest rates of the currency in which the Investor Shares are denominated and/or fluctuations in interest rates of the currency or currencies in which the Fund's assets are denominated may affect the value of the Investor Shares in the Fund.

Investing in Pre-IPOs

Investing in unlisted companies can lead to significant capital gains, but at the same time it involves a number of risks which must be taken into consideration.

Capital Loss

The prospective returns from an equity investment in unlisted companies are necessarily accompanied by a high risk of a total or partial loss of the sums invested. This loss could be linked to the bankruptcy of the company in case of failure of its project or a lack of future financing. However, even if the company does not fail, a partial loss can result from lower than expected results in the future.

Investments in company bonds also feature a risk of loss of invested capital in case of a lack of liquidity at maturity or bankruptcy of the company.

Lack of Liquidity

A lack of liquidity corresponds in reality to difficulty in selling or trading the securities subscribed to since companies are not traded on the secondary market like the shares of publicly listed companies, and thus there is no guarantee as to the liquidity of the investment. Certain statutory and/or extra-statutory clauses in the operations presented can lead to potential restrictions on the negotiability of shares and limit the possibility of selling shares of the company.

Dilution

Any investment realised through the platform could be subject to dilution. In other words, if the company raises additional funds at a later date through the issue of new shares subscribed to by new investors, the percentage stake in the issuing company held by investors who do not subscribe to this capital increase will fall.

Market Volatility

Market volatility reflects the degree of instability and expected instability of the performance of the Investor Shares and the Fund's assets. The level of market volatility is not purely a measurement of the actual volatility, but is largely determined by the prices for instruments, which offer investors protection against such market volatility. The prices of these instruments are determined by forces of supply and demand in the options and derivatives markets generally. These forces are, themselves, affected by factors such as actual

market volatility, expected volatility, macro economic factors and speculation.

Liquidity Risk

Certain types of assets or securities may be difficult to buy or sell, particularly during adverse market conditions. This may affect the ability to obtain prices for the assets held by the Fund and may therefore prevent the calculation of the NAV per Share and/or the raising of cash to meet redemptions of Investor Shares in the Fund.

Political Risk

Political risks of countries where the fund is invested might have implications on the investment portfolio leading to lower asset valuations and/or currency volatility. The fund will seek to invest only in stable jurisdictions with solid foundations and where the rule of law is respected. Country risk is generally adequately accounted for throughout the investment process.

Currency Risk

The fund will have investments in assets designated in currencies other than the USD, hence bearing an exchange rate risk as well as repatriation risk. Furthermore, volatility of currencies other than the USD would have an impact on the investment portfolio. The investment manager aims to adequately diversify the currency risks and to manage that risk at a company level (bottom-up). A material portion of the investment portfolio would be designated in currencies of advanced economies.

Tax and Legal Risks

The tax consequences to the Fund and investors in the Fund, the ability of the Fund as a foreign investor to invest in the markets and to repatriate its assets including any income and profit earned on those assets and other operations of the Fund are based on existing regulations and are subject to change through legislative, judicial or administrative action in the various jurisdictions in which the Fund operates. There can be no guarantee that income tax legislation and laws or regulations governing the Fund's operations and investments will not be changed in a manner that may adversely affect the Fund.

Specific Restrictions in Connection with the Investor Shares

Investors should note that there may be restrictions in connection with the subscription for, holding, transferring and redemption of the Investor Shares. Such restrictions may have the effect of preventing the investor from freely subscribing for, holding and/or redeeming the shares. In addition to the features described below, such restrictions may also be caused by specific requirements such as the minimum amount that may be held or invested in any particular Class of Investor Shares.

Maximum Redemption Amount

The Company will have the option to limit the number of Investor Shares redeemed on any Dealing Day to a stated percentage of the total NAV of the Fund on that Dealing Day and, in conjunction with such limitation, to *pro rata* limit the number of Investor Shares redeemed by any Shareholder on such Dealing Day so that all Shareholders wishing to have Investor Shares redeemed on that Dealing Day realise the same

proportion of such Investor Shares. In the event the Company elects to limit the number of Investor Shares redeemed on such date, a Shareholder may not be able to redeem on such Dealing Day all the Investor Shares that it desires to redeem. Investors should review this Prospectus to ascertain when and how such provisions may apply.

Limited Transferability

Since the Directors may decline to register a transfer of Investor Shares at their sole and absolute discretion, Shareholders may not be able to dispose of their investments privately and therefore would have to utilise the Company's redemption or repurchase programme, which itself may be subject to restrictions, albeit to be exercised in exceptional circumstances, where the circumstances so require, and when suspension is justified having regard to the interest of the Shareholders. Furthermore, the Fund may be required by the MFSA to suspend redemptions where it is considered to be in the interest of Shareholders – see the part entitled "*Redemption of Shares*" below.

Illiquidity of Investor Shares

There will be no secondary market for the Investor Shares, and consequently, Shareholders can normally dispose of the Investor Shares only by means of redemption on any Redemption Day as described in this Prospectus. There is no assurance that the Fund will be able to liquidate the portfolio securities attributable to the Investor Shares being redeemed without losses. These losses might have an adverse effect on the NAV and thus on the redemption proceeds that will be received by the outgoing investor. In the event of unsettled market conditions, or if for any reason the Fund is unable to liquidate its investments or if it is obliged to suspend dealings in its Investor Shares, the Fund may be unable to redeem such Investor Shares.

Substantial Redemptions

Substantial redemption/repurchase of Investor Shares in the Fund could require the Fund to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the value of the Investor Shares. In these circumstances, the Fund may defer redemptions/repurchases. Substantial redemptions/repurchases might cause the liquidation of the Fund.

Illiquidity in certain markets could also make it difficult for the Fund to liquidate positions on favourable terms, thereby resulting in a decrease in the value of the assets. In these circumstances, the non-redeeming Shareholders will bear a disproportionate risk of any decline in the value of a Fund's assets subsequent to the redemptions.

Temporary Suspension in Redemptions

The Directors have the power to suspend redemption of Investor Shares for which redemption requests have been received if they should determine that the calculation of the Net Asset Value is not practicable or reasonable, or that redemption would involve the realisation of assets of the Fund which in the opinion of the Directors could, if realised at that particular moment in time, adversely affect and prejudice the interest of Shareholders.

No issue of Investor Shares will take place during any period when the redemption of Investor Shares has been suspended.

Notice of the suspension of redemption will be given to any shareholder tendering his shares for redemption. The redemption will then take place on the first Redemption Day following the end of the suspension.

Suspension in the determination of the NAV

The Fund reserves the right to suspend the determination of the Net Asset Value. In such cases a Shareholder may be unable to redeem his Investor Shares in the Fund within the normal timeframes described in this Prospectus.

Compulsory Redemptions

The Fund reserves the right to require a Shareholder to redeem its total shareholding, in the event that the holding of Investor Shares by the Shareholder concerned may result in regulatory, pecuniary, legal, taxation or material administrative disadvantage for the Fund or the Shareholders as a whole, or, if as at any Valuation Point, the total value of the Investor Shares held by the Shareholder is less than the Minimum Holding for the Fund. Such compulsory redemptions, which will take place at the prevailing Redemption Price, may crystallise losses and/or deprive an investor of the opportunity to recover losses or otherwise gain from investing in the Fund.

Market Disruption Events & Settlement Disruption Events

A determination of a market disruption event or a settlement disruption event in connection with any of the Fund's assets may have an effect on the value of the Investor Shares in the Fund and may delay settlement in respect of the Fund's assets.

Confidential Information

The Investment Manager may, in connection with its other business activities, acquire material non-public confidential information that may restrict it from purchasing assets or selling assets for itself or its clients (including the Fund) or otherwise using such information for the benefit of its clients or itself.

Conflicts of Interest

Conflicts of interest may arise between the Fund and certain Relevant Parties (being the persons or entities involved in the management of the Company or offering services to it and/or the Investment Manager, the Administrator, the Depositary or other service providers or counterparties to the Company including any prime brokers, sub-custodians and futures clearers which may be appointed in respect of the Fund). The Relevant Parties which may be appointed in respect of the Fund (including their respective principals, shareholders, members, directors, officers, agents or employees) may from time to time act as investment manager, custodian, registrar, broker, administrator, investment advisor, prime broker or futures clearer, distributor or dealer in relation to, or otherwise be involved in, other funds established by parties other than the Fund, as the case may be, which have similar objectives and which make investments similar to those made on behalf of the Fund. Such clients could thus compete for the same trades or investments, and whilst available investments or opportunities for each client are generally expected to be allocated in a manner believed to be equitable to each, certain of the allocation procedures may adversely affect the price paid or received for investments or the size of positions obtained or disposed.

Conflicts may also arise as a result of the other services provided by affiliates of the Investment Manager which may provide advisory, custody or other services to the Investment Manager. Similarly, the Directors may also be directors of other companies in which the Fund may invest, which could result in conflicts of interest. Generally, there may be conflicts of interest between the interests of the Fund and the interests of the Investment Manager and its affiliates and the Directors to generate fees, commissions and other revenues. In the event that such a conflict of interest arises, the Directors will endeavour to ensure that it is resolved in the best interest of the Fund. It should be noted that the Investment Manager of the Fund, as well as its affiliates, may at any time also be offering their services to one or more of the investors in the Fund.

Furthermore, the Directors or the Investment Manager may have equity stakes in the Fund to which they are providing their services, or own or have an interest.

See “*Conflicts of Interests*” section for further details on the conflict of interests applicable to the Fund.

Taxation

Investors in the Investor Shares in the Fund should be aware that they may be required to pay income tax, withholding tax, capital gains tax, wealth tax, stamp taxes or any other kind of tax on distributions or deemed distributions of the Fund, capital gains within the Fund, whether or not realised, income received or accrued or deemed received within the Fund etc., and this will be according to the laws and practices of the country where the Investor Shares are purchased, sold, held or redeemed and in the country of residence or nationality of the Shareholder.

Investors should be aware of the fact that they might have to pay taxes on income or deemed income received by or accrued within the Fund. Taxes might be calculated based on income received and/or deemed to be received and/or accrued in the Fund in relation to the Fund asset, whereas the performance of the Fund, and subsequently the return investors receive after redemption of the Shares, might partially or fully depend on the performance of underlying assets of an FDI. This can have the effect that the investor has to pay taxes for income or/and a performance which he does not, or does not fully, receive.

Investors who are in any doubt as to their tax position should consult their own independent tax advisors. In addition, investors should be aware that tax regulations and their application or interpretation by the relevant taxation authorities change from time to time. Accordingly, it is not possible to predict the precise tax treatment, which will apply at any given time.

Change of Law

The Fund must comply with regulatory constraints, such as a change in the laws affecting the Investment Restrictions, which might require a change in the investment policy and objectives followed by the Fund.

Political and/or Regulatory Risk

The performance of the Investor Shares in the Fund or the possibility to purchase, sell, or repurchase may be affected by changes in general economic conditions and uncertainties such as political developments, changes in government policies, laws or regulations (including regarding taxation), the imposition of restrictions on the transfer of capital and changes in regulatory requirements in the Fund’s home jurisdiction

or in countries where a Fund is invested. The legal infrastructure, accounting, auditing and reporting standards in certain jurisdictions in which the capital of a Fund may be invested may not offer the same degree of investor protection or information as is normally expected in major securities markets.

Dependence on Key Individuals

The Investment Manager is responsible for the day to day management of the portfolio of assets of the Fund. The Company's success depends to a significant extent, upon the relevant persons to properly manage the Fund and the Investment Manager's ability in respect of the day to day management of the assets of the Fund. To the extent that such activities relate to the operations of the Fund, the Fund may be adversely affected if the persons responsible for these activities cease to participate in the operation of the Fund or of the Investment Manager. The loss of such a key individual's services (e.g. through death, disability, retirement or leaving the employment of the Investment Manager) could cause the Fund to suffer losses.

Fee Structure

The Fund will bear the fees paid to the Investment Manager, any Authorised Distributor, the Depositary, the Administrator and other service providers. Further, certain of the strategies employed in the Fund, or in investments made by the Fund, may require frequent changes in trading positions and consequent portfolio turnover.

Borrowing Risks

The Fund may not be able to repay borrowings or may be forced to sell investments at a disadvantageous time in order to repay borrowings. The Fund might elect to sell its more liquid assets to repay borrowings, or to meet redemptions, thus increasing its concentration in less liquid securities.

Cybersecurity Risks

As part of its business, the Fund processes, stores and transmits large amounts of electronic information, including information relating to the transactions of the Fund and personally identifiable information of the Shareholders. Similarly, service providers of the Fund or the Fund, especially the Administrator, may process, store and transmit such information. The Fund has procedures and systems in place that it believes are reasonably designed to protect such information and prevent data loss and security breaches. However, such measures cannot provide absolute security. The techniques used to obtain unauthorized access to data, disable or degrade service, or sabotage systems change frequently and may be difficult to detect for long periods of time. Hardware or software acquired from third parties may contain defects in design or manufacture or other problems that could unexpectedly compromise information security. Network connected services provided by third parties to the Fund may be susceptible to compromise, leading to a breach of the Fund's network. The Fund's systems or facilities may be susceptible to employee error or malfeasance, government surveillance, or other security threats. On-line services provided by the Fund to the Shareholders may also be susceptible to compromise. Breach of the Fund's information systems may cause information relating to the transactions of the Fund and personally identifiable information of the Shareholders to be lost or improperly accessed, used or disclosed.

The service providers of the Fund and the Fund are subject to the same electronic information security threats as the Fund. If a service provider fails to adopt or adhere to adequate data security policies, or in the event

of a breach of its networks, information relating to the transactions of the Fund and personally identifiable information of the Shareholders may be lost or improperly accessed, used or disclosed. The loss or improper access, use or disclosure of the Fund's or the Fund's proprietary information may cause the Fund or the Fund to suffer, among other things, financial loss, the disruption of its business, liability to third parties, regulatory intervention or reputational damage. Any of the foregoing events could have a material adverse effect on the Fund and the Shareholders' investments therein.

Indemnities

The Directors and officers, the Investment Manager, the Authorised Distributor, the Depositary and the Administrator and each of their directors, officers, employees and agents are entitled to be indemnified in certain circumstances outlined in the Memorandum and Articles of the Company and/ or in the related agreement, as applicable. As a result, there is a risk that the Fund's assets will be used to indemnify such persons, companies or their employees or satisfy their liabilities as a result of their activities in relation to the Fund.

Consequences of winding-up proceedings

If the Fund fails for any reason to meet its obligations or liabilities, or is unable to pay its debts, a creditor may be entitled to make an application for the winding-up of the Fund. The commencement of such proceedings may entitle creditors (including counterparties) to terminate contracts with the Fund and claim damages for any loss arising from such early termination. The commencement of such proceedings may result in the Company being dissolved and its assets being realised and applied to pay the fees and expenses of the appointed liquidator or other insolvency officer, then in satisfaction of debts preferred by law and then in payment of the Fund's liabilities, before any surplus is distributed to the shareholders of the Company. In the event of proceedings being commenced, the Fund may not be able to pay, in full or at all, any amounts due in terms of this Prospectus to the Shareholders.

Sustainability Risk

"Sustainability risk" is defined in the EU's Sustainable Finance Disclosure Regulation (2019/2088) as an environmental, social or governance event or condition which, if it occurs, could cause an actual or potential material negative impact on the value of an investment. Examples of sustainability risks which are potentially likely to cause a material negative impact on the value of an investment, should those risks occur, are as follows:

- environmental sustainability risks may include climate change, carbon emissions, air pollution, rising sea levels or coastal flooding or wildfires;
- social sustainability risks may include human rights violations, human trafficking, child labour or gender discrimination; and
- governance sustainability risks may include a lack of diversity at board or governing body level, infringement or curtailment of rights of shareholders, health and safety concerns for the workforce or poor safeguards on personal data or IT security.

The Fund considers multiple sustainability criteria in the pre-investment stage (assessing potential investments), during the investment and also seeks to maximise the return on investment by seeking to consider Environments, Social and Governance compliance in the valuation of a private equity holding upon divestment. Investors should nonetheless be aware that the Fund's ESG standards may have a bearing on

the investment decision making process, the cost of the investment, and the valuation for divesting of the asset. The likely impacts of a sustainability risk may be numerous and can vary depending on the specific risk and asset class. To the extent that a sustainability risk materialises, or materialises in a manner that is not anticipated by Fund, there may be a sudden, material negative impact on the value of an investment.

Nominee Arrangements

Where Investor Shares in the Fund are held by a nominee service provider on behalf of an investor, or/and investor holds interests in the Investor Shares of the Fund through accounts with a clearing system, such investor will only receive payments in respect of redemption proceeds and/or any dividends attributable to the Investor Shares on the basis of the arrangements entered into by the investor with the nominee service provider or Clearing System, as the case may be.

Furthermore, any such investor will not appear on the share register of the Fund (the “**Register**”), will have no direct right of recourse against the Fund and must look exclusively to the nominee service provider or clearing system for all payments attributable to the relevant Shares. The Fund and the Directors will recognise as Shareholders only those persons who are at any time shown on the Register for the purposes of (i) the payment of dividends and other payments due to be made to Shareholders (as applicable); (ii) the circulation of documents to Shareholders; (iii) the attendance and voting by Shareholders at any meetings of Shareholders; and (iv) all other rights of Shareholders attributable to the Shares. None of the Fund, the Directors, the Investment Manager, the Administrator, the Depositary or any other person will be responsible for the acts or omissions of any nominee service provider or clearing system, nor make any representation or warranty, express or implied, as to the services provided by any nominee service provider or clearing system. The Administrator is not authorised to have nominee arrangements which require a licence under the ISA.

Performance Fees

To the extent that the Investment Manager will be entitled to receive a Performance Fee from the Fund, such fees may create an incentive for the Investment Manager to engage in investment strategies and make investments that are more speculative than would be the case in the absence of such fees.

Furthermore, the increase in NAV which is used as a basis for the calculation of performance fees, may be comprised both of realised gains as well as unrealised gains as at the end of the Performance Period and as a result, performance fees may be paid on unrealised gains which may subsequently never be realised by the Fund. The performance fee payable to the Investment Manager is not subject to a cap or a maximum amount.

The Fund will adopt an equalisation methodology for the calculation of the Performance Fee, which ensures that any Performance Fee is charged only to those Investor Shares that have appreciated in value.

The Performance Fee shall be calculated and paid only after consideration of all other payments.

Lack of Operating History

The Fund is a newly formed entity and as such does not have any established track record which could be utilised as a basis for evaluating potential performance.

General

Any investor who is in any doubt about the risks of investing in the Fund should consult his or her own financial advisor.

THE FOREGOING LIST OF RISK FACTORS DOES NOT PURPORT TO BE A COMPLETE ENUMERATION OR EXPLANATION OF THE RISKS INVOLVED IN AN INVESTMENT IN THE FUND. PROSPECTIVE INVESTORS SHOULD READ THIS ENTIRE PROSPECTUS, AND CONSULT THEIR OWN COUNSEL AND ADVISORS BEFORE DECIDING TO INVEST IN THE FUND.

14. Prevention of Money Laundering and Data Protection

Anti-Money Laundering Measures (Maltese Requirements)

The Fund will fully comply with its obligations under the Prevention of Money Laundering Act, Cap. 373 of the Laws of Malta, (the "PMLA") and the Prevention of Money Laundering and Funding of Terrorism Regulations, 2008 (the "**Regulations**"). Such obligations include the identification of its investors, the retention of the relevant identification and transaction documentation and the reporting of transactions suspected of involving money laundering to the Financial Intelligence Analysis Unit. In this regard the Fund will establish appropriate internal procedures to fulfil these obligations. The Fund will rely on the Administrator to perform customer due diligence checks on prospective investors.

It is a condition of each subscription that, to ensure compliance with Maltese laws and regulations designed to prevent money laundering and to counter terrorist financing, the Administrator will require verification of identity of any applicant subscribing for Investor Shares. The making of an application to subscribe for Shares will constitute a warranty from the applicant that such application, and the related remittance of the necessary funds, will not in any way breach any rules and regulations designed to avoid money laundering.

Each applicant **must**, at the time of initial investment, complete and return a completed Application/Subscription Form **and** all relevant identification, verification and evidential documentation, in line with the PMLA and the Regulations, as may be required from time to time (the "**AML Documentation**").

No initial application will be accepted without the Administrator having all the required documents by the stated application/subscription deadline regardless of whether or not funds have been wired.

In the event that this AML Documentation is not completed in full and submitted with the relevant Application/Subscription Form, the application to invest will be deemed to be incomplete and will not be processed. The investor will be contacted (using the contact details provided) regarding the outstanding documentation. Any failure by an investor to complete and submit required documents may lead to the investor missing their preferred Dealing Day regardless of whether or not the subscription monies have been wired. No interest is payable on subscription proceeds held over in the client subscription account until the next available Dealing Day.

It is a further condition of each subscription that none of the Fund, the Investment Manager or the Administrator shall be responsible, or have any liability for, loss or damage (whether actual or contingent) arising from a decision by the Fund, Investment Manager or Administrator to treat any application as incomplete as a result of the applicant failing to provide a completed Application/Subscription Form **and** full AML Documentation either at all, or by the stated application deadline.

By completing and signing the subscription documentation, the applicant undertakes to supply the Administrator with **all** the necessary documentation listed as required. The Administrator may require

the original documentation to be sent to the address stated in the Directory. In the event that the relevant AML Documentation is not supplied to the Administrator within an absolute deadline of thirty (30) calendar days, the applicants account will be frozen.

When an account is 'frozen' the applicant will not be able to make additional subscriptions nor redeem their shares until such time as the Anti Money Laundering requirements of the Administrator have been met in full.

It is a further condition of each subscription that none of the Fund, the Investment Manager or the Administrator shall be responsible, or have any liability for, loss or damage (whether actual or contingent) arising from a decision by the Fund to treat any account as frozen as a result of the applicant failing to provide evidence of identity to the satisfaction of the Administrator **within an absolute deadline of thirty (30) calendar days** of the date of application.

It must also be noted that the Administrator will not allow the remittance of redemption monies to a Shareholder until all documents requested have been received. Further, it is a regulatory requirement to report suspicious transactions, and any relevant data in this regard may need to be transferred to the relevant regulators.

There is also a requirement to know the investors' source of wealth. A further requirement is to know the source of the funds, such requirement normally implies to know the bank and account from which the monies are remitted. A further requirement is that such monies invested may only be redeemed to the account of remittance, except in exceptional circumstances where agreed to by the Administrator.

Finally, as the aforementioned legislation is subject to change, any additional requirements imposed on the Administrator will be reflected in the requirements applicable to an investor subscribing for Investor Shares.

Other Anti-Money Laundering Requirements

As part of the Administrator's responsibility to comply with regulations aimed at the prevention of money laundering and terrorist financing, the Administrator may require a detailed verification of an investor's identity, any beneficial owner of the investor, and the source of the investor's subscription payment.

The Administrator reserves the right to request such information as is necessary to verify the identity of a prospective investor and any underlying beneficial owner of the investor. The Administrator also reserves the right to request such identification evidence in respect of a transferee of Investor Shares. In the event of delay or failure by the prospective investor or transferee to produce any information required for verification purposes, the Administrator may refuse to accept or delay the acceptance of the Subscription Application, or (as the case may be) to register the relevant transfer of Investor Shares, and (in the case of a subscription for Investor Shares) any funds received will be returned without interest to the account from which the monies were originally debited.

The Administrator also reserves the right to refuse to make any redemption payment or distribution to a Shareholder, if any of the Directors of the Company or the Administrator is advised that the payment of any redemption or distribution moneys to such Shareholder might result in a breach or violation of any applicable anti-money laundering laws or the laws, regulations, and executive orders administered by the

U.S. Department of Treasury's Office of Foreign Assets Control (“OFAC”), or other laws or regulations by any person in any relevant jurisdiction (collectively, “AML/OFAC obligations”).

Each Subscriber will be required to make such representations as the Company or the Administrator may require in connection with applicable AML/ OFAC obligations, including, without limitation, representations that such Subscriber is not:

- (1) an individual or entity named on any available lists of known or suspected terrorists, terrorist organisations or of other sanctioned persons issued by the United States government and the government(s) of any jurisdiction(s) in which the Company is doing business, including the List of Specially Designated Nationals and “Blocked Persons” administered by OFAC as such list may be amended from time to time;
- (2) an individual or entity otherwise prohibited by the OFAC sanctions programs; or
- (3) a current or former senior political figure or politically exposed person¹, or an immediate family member or close associate of such an individual.

Further, such Subscriber must represent that it is not a prohibited foreign shell bank².

The Directors may, in their absolute discretion accept a Subscription Application from a current or former senior foreign political figure or politically exposed person, or an immediate family member or close associate of such an individual, provided that an Enhanced Due Diligence has been carried out.

Such Subscriber will also be required to represent that amounts contributed by it to the Company were not directly or indirectly derived from activities that may contravene U.S. Federal, state or international laws and regulations, including, without limitation, any applicable anti-money laundering laws and regulations.

Each Subscriber and Shareholder agrees to notify the Company and the Administrator promptly in writing should it become aware of any change in the information set forth in its representations. The Subscriber or Shareholder is advised that, by law, the Company may be obligated to “freeze the account” of such Subscriber or Shareholder, either by prohibiting additional investments from the Subscriber or Shareholder, declining any withdrawal requests from the Subscriber or Shareholder, suspending the payment of withdrawal proceeds payable to the Subscriber or Shareholder, and/or segregating the assets in the account in compliance with governmental regulations. The Company and the Administrator may also be required to report such action and to disclose the Subscriber or Shareholder's identity to OFAC or other applicable governmental and regulatory authorities.

The Administrator’s Money Laundering Reporting Officer (“MLRO”), Ms Sarah Farrugia, shall be carrying out the duties attributable to the role of the Fund’s MLRO.

- c. to the extent that the Fund may lawfully and in accordance with the Articles effect such redemption, on being satisfied of the Shareholder's entitlement and on receipt of a valid request for redemption of shares duly completed at least fifteen (15) calendar days prior to the relevant Valuation Day, the Fund shall redeem the shares as requested on the Dealing Day on which the redemption request is effective subject to any suspension of this redemption obligation.

Shares in the capital of the Fund which are redeemed by the Fund shall be cancelled. Furthermore, a request for the redemption of shares by a Shareholder is irrevocable.

The Directors may in their exclusive discretion limit redemptions as follows: Redemptions may be restricted if the gross amount of the redemption requests of the Investor Shares for a relevant Redemption Day is greater than twenty per cent (20%) of the NAV of the Fund for such Redemption Day. Redemptions may also be restricted if the redemption request from an individual account for a relevant Redemption Day is greater than ten per cent (10%) of the NAV of the Fund for such Redemption Day. In such circumstances the Fund or its authorised agent may scale down *pro rata* the number of Voting redeemable Participating Shares to be redeemed in response to each request for redemption to the extent necessary to ensure that the foregoing limit is not exceeded, and shall carry forward the balance for redemption as at the next Redemption Day and so on to each succeeding Redemption Day until each request has been complied with in full. Requests for redemption carried forward from an earlier Redemption Day shall have priority over later requests.

Redemption proceeds due will be paid to the redeeming Shareholder on the fourth day following the receipt of a valid request for redemption by the Fund after final calculation and approval of the Net Asset Value per Investor Share in the Fund as of the last preceding Valuation Day, providing all Anti-Money Laundering documentation has been received.

Except as discussed above and below, all requests for redemption in the proper form will be honoured and

the Fund's investments will be liquidated to the extent necessary (if any) to discharge its liability on the date of redemption.

Redemption Notices sent by the Shareholder to the Administrator will not be deemed to have been received by the Administrator unless receipt is acknowledged *via* email by the Administrator.

Redemption Price

The Redemption Price as at the Valuation Point for the relevant Redemption Day, rounded to four (4) decimal places.

The Redemption Price is the NAV per Share calculated at the close of business on the relevant Valuation Point. The NAV per Share will reflect all accrued income and expenses.

Compulsory Redemption

Each Shareholder must represent and warrant to the Company that amongst other things he/she/it is able to buy Investor Shares without violating applicable laws. The Company reserves the right to seek evidence of identity to comply with any applicable Prevention of Money Laundering requirements. In the case of failure to provide satisfactory information, the Company may take such action, as it thinks fit.

The Company reserves the right to require a Shareholder to redeem its total shareholding, within fifteen (15) Business Day of a notice of intent to do so, at the prevailing Redemption Price on the day that the requested redemption takes place, in the event that:

- a. the holding of Investor Shares by the Shareholder concerned may result in regulatory, pecuniary, legal, taxation or material administrative disadvantage for the Fund or the Shareholders as a whole;
- b. at any Valuation Point, the total value of the Investor Shares held by the Shareholder is less than the Minimum Holding for the Fund; or
- c. for any other reason at the sole discretion of the Investment Manager.

Such compulsory redemptions will take place at the prevailing Redemption Price on the day that such redemption takes place.

Total Redemption

If at any time after the first anniversary of the incorporation of the Fund, the Net Asset Value of all the Investor Shares in the Fund, calculated in accordance with the Prospectus, is less than three million U.S. Dollars (US\$ 3,000,000.00) (or its currency equivalent) and remains so for a consecutive twelve (12) week period, the Company may in accordance with the Articles repurchase all the Investor Shares of the Fund not previously repurchased.

Suspension of Redemptions

Should it appear to the Administrator that the effect of a Redemption Notice will result after the Redemption, in the Shareholder holding in aggregate less than the Minimum Holding, the Administrator shall immediately inform the applicant that the request for redemption has been suspended until the Notice is amended either to result in observance of the Minimum Holding of Investor Shares, after redemption, or to

request the redemption of all of the outstanding Investor Shares in the name of the Shareholder.

Temporary suspension of Net Asset Value calculations and of Redemption Payments

The Directors may declare a temporary suspension of any one or more of:

- a. the determination as at any Valuation Point of the Net Asset Value (and as a result the Net Asset Value per Investor Share);
- b. the issue of Investor Shares in the Fund;
- c. the exchange of Investor Shares in the Fund; and
- d. the redemption of Investor Shares in the Fund, during any period during which circumstances exist in which the Directors consider that to permit determination of Net Asset Value and/or to permit issues, redemptions and/or exchanges of Shares, as the case may be, would not be in the best interests of the Fund, as the case may be, and its Shareholders as a whole.

The Company at any time may, but shall not be obliged to, temporarily suspend, as at any Valuation Point, the determination of the Net Asset Value of any class of Investor Shares and the sale and redemption of such shares, in the following instances:

- a. during any period (other than holiday or customary weekend closings) when any market is closed which is the main market for a significant part of the investments comprised in the Fund to which such class of Investor Shares relates, or in which trading thereon is restricted or suspended; or
- b. during any period when as a result of political, economic, military or monetary events or any other cause or circumstance outside the control, responsibility and power of the Fund, disposal by the Fund of investments which constitute a substantial portion of the assets of the Fund to which such class of Investor Shares relates is not practically feasible without being seriously detrimental to the interests of Shareholders; or
- c. during any period when for any reason, in the opinion of the Directors, a fair price of investments comprised in the Fund to which such class of Investor Shares relates cannot be reasonably, promptly or accurately ascertained by the Fund; or
- d. during any period when there is a breakdown of the means of communication normally used for the valuation of investments comprised in the Fund or if for any reason the value of any asset of the Fund may not be determined as rapidly and as accurately as required; or
- e. during any period when remittance of monies which will, or may, be involved in the realisation of, or in the payment for, investments comprised in the Fund to which such class of shares relates cannot, in the opinion of the Directors, be carried out at normal rates of exchange; or
- f. during any period when the proceeds of sale or redemption of such shares in the Fund cannot be transmitted to or from the Company's account; or
- g. as a result of exchange restriction or other restrictions affecting the transfer of funds, transactions on behalf of the Fund are rendered impracticable, or purchases, sales, deposits and withdrawals of the Fund's assets cannot be effected at the normal rates of exchange; or
- h. an Extraordinary Resolution to wind up the Company has been passed.

No Investor Shares will be issued during periods when issues of Investor Shares are suspended, no Investor Shares will be exchanged during periods when exchanges are suspended, and no Investor Shares will be redeemed during periods when redemptions are suspended. In such a case, a Shareholder may, subject to the below, withdraw its Share application or redemption or exchange request, as appropriate, provided that a withdrawal notice is actually received by the Administrator before the suspension is terminated.

Unless withdrawn, Share applications and redemption and exchange requests, as appropriate, will be acted upon on the first Dealing Day after the suspension is lifted at the relevant Subscription Price or Redemption Price (as the case may be) prevailing on that Dealing Day (as the case may be). An application for Investor Shares may not be withdrawn if issues of Investor Shares are suspended on a date following the Dealing Day upon which the application for such Investor Shares is deemed to be effective. The NAV will not be calculated during periods when the determination of the NAV of the Fund is suspended.

Notice of the suspension and its termination will be given to all Shareholders and. Where possible, all reasonable steps will be taken to bring any period of suspension to an end as soon as possible.

The Fund reserves the right, at its discretion, to delay payment of Redemption Proceeds to investors whose redemption requests have been accepted and/or processed on or as at a date prior to any such suspension or deferral of redemptions until after the suspension or deferral is lifted or no longer exists. The Fund intends to exercise such right only in extraordinary circumstances, such as when the Directors (or the relevant Administrator or other Service Provider delegated with this function) believe that to make such payment during the period of suspension or deferral would materially and adversely affect or prejudice the interest of continuing investors.

Frequent Trading

Investment in the Fund is intended for long term purposes only. The Directors will take reasonable steps to seek to prevent excessive and/or short-term trading or similar abusive practices. Excessive and/or short-term trading into and out of the Fund can disrupt or impair portfolio investment strategies, are likely to unnecessarily increase expenses and might negatively impact investment returns for all Shareholders, including long term Shareholders who do not generate these expenses. The Directors reserve the right to reject any redemption, purchase or conversion request delivered by any investor or group of investors if the Directors believe that such redemption, purchase or conversion request disrupts or impairs the trading activity in the portfolio(s) and accounts(s) of the Fund.

Investors need to be aware that there are practical restraints in both determining the policy which is appropriate in the interest of long-term investors and in applying and enforcing such policy.

The right to convert or exchange Investor Shares is not intended to facilitate excessive and/ or short term trading. The Directors reserve the right to reject any conversion order for any reason without prior notice.

Redemption *in Specie*

Where a Shareholder submits a redemption request pursuant to which he indicates that he wishes to redeem a number of Investor Shares in the Fund as would on the relevant Redemption Day be equivalent to five percent (5%) or more of the Net Asset Value of the Fund, the Fund may, in its discretion and with the approval of the Shareholder, satisfy such redemption instruction by redeeming such Investor Shares *in specie* and accordingly by transferring to that Shareholder that proportion of the assets of the Fund which is at least equal to the Net Asset Value of the Investor Shares being redeemed. The nature of the assets and the type of the assets to be transferred to that Shareholder shall be determined by the Fund on such basis as the Fund, in consultation with the Depositary, shall deem equitable and not prejudicial to the interests of both the remaining and outgoing Shareholders.

For such purposes, the Company shall draw up a valuation report which shall include:

- (1) a description of each of the assets comprising the consideration;
- (2) the value of each asset and a description of the method of valuation used; and
- (3) a confirmation that the value of the consideration is at least equal to the Net Asset Value of the Investor Shares being redeemed in return for such consideration.

The value of the assets shall be determined on the same basis used in calculating the Net Asset Value. Such valuation report shall be held at the registered office of the Fund and shall be made available to the MFSA for inspection during compliance visits.

17. Fees, Compensation and Expenses

Investment Manager's Fees

Under the terms of the Investment Management Agreement, Investor Shares will pay at the end of each month a management fee calculated at 1.75% per annum based on total assets under management in the Fund.

The Investment Management Fee will be based on total assets under management in the Fund on each Valuation Day (before calculation of the Investment Management Fee) and will be calculated and paid monthly in arrears after taking into account all subscriptions and redemptions.

The maximum level of Investment Management Fees that may be charged to the Fund itself shall not exceed 1.75% per annum, based on the total assets under management in the Fund.

In the event of termination of the Management Agreement, the Investment Management Fee shall be computed by treating the effective date of termination as if it were the last day of the relevant period for each fee.

Investment Manager reserves the right to pay any part of its compensation to persons who may or may not be associated with the Investment Manager, or with whom it may contract, for services rendered to the Investment Manager or the Fund. No shareholder shall have any right of recourse against the Investment Manager or any such third parties in respect to any such payments made.

Performance Fees

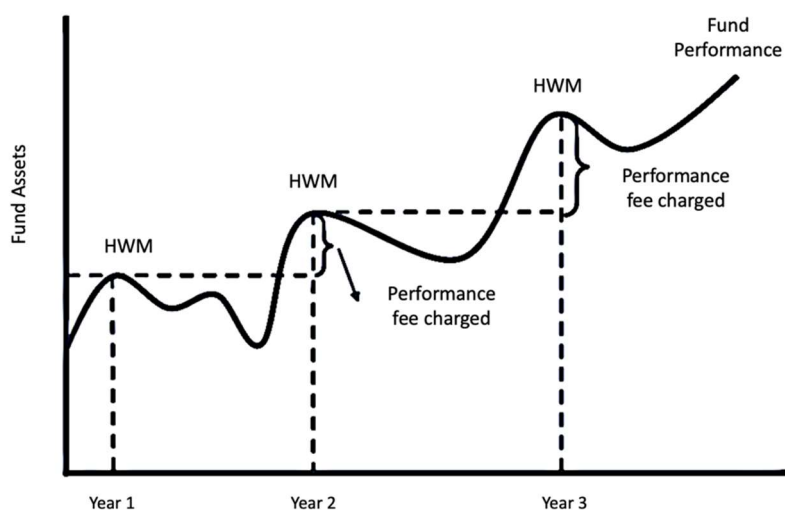

To the extent that the Investment Manager will be entitled to receive a Performance Fee from the Fund, such fees may create an incentive for the Investment Manager to engage in investment strategies and make investments that are more speculative than would be the case in the absence of such fees.

Furthermore, the increase in NAV which is used as a basis for the calculation of Performance Fees, may be comprised both of realised gains as well as unrealised gains as at the end of the calculation period, and as a result, Performance Fees may be paid on unrealised gains which may subsequently never be realised by the Fund. The Performance Fee payable to the Investment Manager is not subject to a cap or a maximum amount. The Fund performance will be calculated in line with GIPS (Global Investment Performance Standards). The methodology of calculation would be time-weighted total return, net of trading costs. The Performance Fee is borne by the Shareholders, not the Fund.

The Performance Fee calculation that will be applied can be expressed as follows:

Performance Fee per Share = 20% x [Fund gross return – Greater of benchmark return and HWM].

Any performance fees become payable at the crystallization date as defined in the prospectus, or when shares are redeemed and there is a positive performance fee accrued.

The Fund will adopt an equalisation methodology for the calculation of the Performance Fee, which ensures that any Performance Fee is charged only to those Investor Shares that have appreciated in value.

The Performance Fee is calculated on a Share-by-Share basis so that each Investor Share is effectively charged a Performance Fee that equates precisely with that Share's performance. This method of calculation ensures that: (i) all holders of Investor Shares have the same amount of capital per Investor Share at risk in the Fund and (ii) all Investor Shares have the same Net Asset Value per Investor Share.

The Fund operates an equalisation account in order to ensure an equal treatment for the payment of the Performance Allocation irrespective of the timing of the subscription/redemption of Shares. If an Investor subscribes for Shares at a time when the Net Asset Value per Share of that class is other than the High Water Mark per Share and above the relevant benchmark (as both terms defined above) of the relevant class of Shares, certain adjustments will be made to reduce inequities that could otherwise result to the Investors.

A. If Shares are subscribed for at a time when the Net Asset Value per Share is less than the High Water Mark per Share plus relevant benchmark, the Investor will be required to pay a Performance Allocation with respect to any subsequent appreciation in the value of those Shares. With respect to any appreciation in the value of those Shares from the Net Asset Value per Share at the date of subscription up to the High Water Mark per Share, the Performance Allocation will be charged at the end of each Calculation Period by the automatic forfeiture by the Investor in favour of the Fund of such number of the Shares as have an aggregate Net Asset Value (after accrual for any Performance Allocation) equal to twenty per cent (20%) of any such appreciation (a "Performance Allocation Redemption"). An amount equal to the aggregate Net Asset Value of the Shares so redeemed will be paid to the Investment Manager as a Performance Allocation. The Fund will not be required to pay to the Investor the redemption proceeds of the relevant Shares. Performance Allocation Redemptions are employed to ensure that the Fund maintains a uniform Net Asset Value per Share. As regards the investor's remaining Shares, any appreciation in the Net Asset Value per Share of those Shares above the High Water Mark per Share will be charged a Performance Allocation in the normal manner described above.

B. If Shares are subscribed for at a time when the Net Asset Value per Share is greater than the High Water Mark per Share plus relevant benchmark, the investor will be required to pay an amount in excess of the then current Net Asset Value per Share equal to twenty per cent (20%) of

the difference between the then current Net Asset Value per Share (before accrual for the Performance Allocation) and the High Water Mark per Share (an “**Equalisation Credit**”). At the date of subscription the Equalisation Credit will equal the Performance Allocation per Share accrued with respect to the other Shares in the Fund (the “**Maximum Equalisation Credit**”). The Equalisation Credit is payable to account for the fact that the Net Asset Value per Share has been reduced to reflect an accrued Performance Allocation to be borne by existing Investors and serves as a credit against Performance Allocation that might otherwise be payable by the Fund but that should not, in equity, be charged against the Investor making the subscription because, as to such Shares, no favourable performance has yet occurred. The Equalisation Credit ensures that all holders of Shares have the same amount of capital at risk per Share.

The additional amount invested as the Equalisation Credit will be at risk in the Fund and will therefore appreciate or depreciate based on the performance of the Fund subsequent to the issue of the relevant Shares but will never exceed the Maximum Equalisation Credit. In the event of a decline as at any Valuation Day in the Net Asset Value per Share, the Equalisation Credit will also be reduced by an amount equal to twenty per cent (20%) of the difference between the Net Asset Value per Share (before accrual for the Performance Allocation) at the date of issue and as at that Valuation Day. Any subsequent appreciation in the Net Asset Value per Share will result in the recapture of any reduction in the Equalisation Credit but only to the extent of the previously reduced Equalisation Credit up to the Maximum Equalisation Credit.

At the end of each Calculation Period, if the Net Asset Value per Share (before accrual for the Performance Allocation) exceeds the prior High Water Mark per Share, that portion of the Equalisation Credit equal to twenty per cent (20%) of the excess, multiplied by the number of Shares subscribed for by the Investor, will be applied to subscribe for additional Shares for the Investor. Additional Shares will continue to be so subscribed for at the end of each Calculation Period until the Equalisation Credit, as it may have appreciated or depreciated in the Fund after the original subscription for Shares was made, has been fully applied.

If the Investor redeems his/its Shares before the Equalisation Credit (as adjusted for depreciation and appreciation as described above) has been fully applied, the Investor will receive additional redemption proceeds equal to the Equalisation Credit then remaining multiplied by a fraction, the numerator of which is the number of Shares being redeemed and the denominator of which is the number of Shares held by the Investor immediately prior to the redemption in respect of which an Equalisation Credit was paid on subscription.

The redemption of Shares or the winding up of the Fund shall crystallise the Performance Allocation in respect of the Shares concerned and such Performance Allocation will be payable within fourteen (14) days of the date of such action. For the purposes of the calculation of Performance Allocation associated with a partial redemption of Shares by a Member, Shares will be treated as redeemed on a first in, first out basis. The redemption of Shares or the winding up of the Fund shall crystallise the Performance Allocation in respect of the Shares concerned and such Performance Allocation will become payable.

For the purposes of the calculation of Performance Allocation associated with a partial redemption of Shares by a Member, Shares will be treated as redeemed on a first in, first out basis. No adjustment will be made for the Performance Fee upon a transfer of Shares.

The calculation of the Performance Fee shall be verified by the Depositary.

The Performance Fee shall be calculated and paid only after consideration of all other payments due by the

Fund.

A worked example reflecting the manner in which the Performance Fee shall be calculated in practice, as follows:

Year	Fund	Index
Inception	100	100
1	110	110
2	105	100
3	110	110
4	90	85
5	105	100
6	120	110
7	130	115
8	115	105
9	140	125
10	150	130

* green is HWM

In the example illustrated above, at the end of Year 1, the Fund's performance is equivalent to the benchmark's performance (the Index). In this case, no Performance Fee is charged. In Year 2, the Fund outperforms the Benchmark by 5% and hence a Performance Fee of 1.0% is payable (20% x 5%) given that the Gross Asset Value ("GAV") is higher than at inception (100) and no crystallization has been realized in previous years. Net Asset Value is therefore 103.95 at the end of Year 2 (105 minus the 1% Performance Fee), which will be set as the High Water Mark. In this example, no Performance Fees shall be charged in Years 3-5, despite the Fund outperforming the Benchmark in Year 4 given that the GAV is below the High Water Mark. In Year 6, a Performance Fee is charged accordingly, given that the Fund's performance exceeds the Benchmark and the High Water Mark. The Net Asset Value at the end of Year 6 will be set as the High Water Mark. The same rationale applies in Year 7 and Year 10. High Water Mark can only go higher and there is no reset mechanism in place.

The diagram below provides an illustration of the Performance Fees charged and the High Water Mark as per the example above.

Provided that, any cumulative increase in fees applicable to the Fund or to a Class of Investor Shares exceeding ten percent (10%) of the fees so approved, shall be subject to prior MFSA approval.

18. Taxation

It is entirely the responsibility of prospective shareholders to inform themselves as to any taxation or exchange control legislation affecting them personally. The following summary should not be considered legal or tax advice.

Malta

In terms of current Maltese fiscal legislation, the Fund is not liable to taxation in Malta. Malta domiciled funds enjoy an exemption from income tax and capital gains tax at both the fund level and at a non-resident investor level.

As the Fund is classified as 'non-prescribed' funds (essentially funds which have more than eighty-five percent (85%) of the value of their assets situated outside Malta), no tax is withheld on investment income received by it. There will be no withholding tax on dividends received by non-resident investors in the Fund. Furthermore, no tax is payable by non-resident investors when they dispose of their investment in the Fund.

No stamp duty is charged on Share issues or transfers of Shares and no tax is charged on the Net Asset Value of the Fund.

Applicants for Shares should consult their own advisers as to the particular tax consequences of their proposed investment in the Fund.

TAX CONSEQUENCES MAY VARY DEPENDING UPON THE PARTICULAR STATUS OF AN INVESTOR. THE TAX AND OTHER MATTERS DESCRIBED IN THIS PROSPECTUS DO NOT CONSTITUTE, AND SHOULD NOT BE CONSIDERED AS, LEGAL OR TAX ADVICE TO INVESTORS.

19. Indemnities

The Fund has agreed that with respect to any actions in which any of its officers, Directors, employees and agents is a party, the Fund shall indemnify and hold harmless such person against any loss, claim, damage, charge, liability or expense (including reasonable attorneys' and accountants' fees), judgements and amounts paid in settlement, provided such actions did not involve gross negligence, wilful default, fraud or dishonesty. Expenses may be paid by the Fund in advance of the final disposition of such action if the indemnified person agrees to reimburse the Fund in the event indemnification is not permitted.

The Fund may purchase and maintain insurance in relation to the Directors against any liabilities asserted against them.

In addition, the Fund has granted indemnities to the Investment Manager and the Administrator in respect of actions brought against them in their respective capacities, where they have acted in good faith and in a manner reasonably believed to be in, or not opposed to, the best interests of the Fund and provided that again such actions did not involve gross negligence, wilful default, fraud or dishonesty.

The Fund and the Investment Manager (jointly and severally) undertake to hold harmless and fully indemnify the Depositary (and each of its directors, officers, employees and agents) against all actions, proceedings, claims, loss or damages, costs, demands and expenses (including legal and professional expenses) which may be brought against, suffered or incurred by the Depositary in relation to:

- the Depositary's performance of its services, duties or functions under or pursuant to this Agreement or other agreements the Depositary enters into or executes because of its role as Depositary of the Fund; and
- the insolvency, acts or omissions of the Fund, the Investment Manager, the Administrator or any other service provider, or any third party appointed by the Fund or the Investment Manager;

except where and to the extent that the Depositary is liable for such loss or prejudice, pursuant to the Depositary Agreement.

20. Net Asset Value Calculation

The Administrator will undertake the role of the valuation of the underlying assets in accordance with its valuation policy.

The Roles and Responsibilities of the Different Parties Involved

A detailed review of any new proposed investment in to one of the companies managed by the Investment Manager is prepared for, and presented to, the Investment Manager's investment committee (the "**Investment Committee**") together with a confirmation from the [xxx] ("**[xxx]**") that the proposed investment is within the remit of the Investment Manager. The Investment Committee will also be advised of the proposed valuation methodology and pricing sources to be used according to the schedules for different investment types. The Investment Committee shall provide its feedback on the proposed valuation methodology to the Investment Manager's Chief Risk Officer. The CRO shall, on the basis of the above, approve the valuation methodology or otherwise, and will, in conjunction with the Administrator, conduct monthly reviews (or otherwise if the pricing cycle is not monthly) of the valuation of all underlying investments in the Fund. Where differences arise between the valuation arrived at by the Investment Manager and the Administrator, these are investigated by the CRO and exceptions are reported to the Investment Committee.

In the event of a pricing dispute the prices provided by the Administrator will be used until the dispute has been resolved.

On a monthly basis, the CRO will provide a monthly report to the Investment Committee containing:

- Details of pricing exceptions and proposed resolutions.
- Details of stale prices and proposed pricing for these items.
- Details of any illiquid investments and proposed pricing for these items.
- New investments approved and proposed pricing methodology to be used.

A summary of the CRO's reports covering the last six months will be presented to the Directors during their board meetings once every six months.

The CRO's findings will also be shared with Fund's auditors. The findings are taken into account when the auditors conduct their annual review of the Fund.

Pricing Methodology

The Net Asset Value will be calculated on each Valuation Day. The Net Asset Value is established per Share and is calculated by dividing the Total Net Assets of the Fund by the number of outstanding Shares of the relevant Share Class.

The assets and liabilities belonging to the Fund are in principle valued as follows:

- listed investments are valued at the last-known market price after the Cut-off Time and before the trading time (forward pricing principle). If this price is not considered representative for the current market value, the instrument in question is valued in accordance with generally accepted standards; and
- all stock and cash dividends and cash distributions to be received by the Fund and not yet received by it but declared payable to stockholders of record on a date on or before the day as of which the Net Asset Value is being determined; and
- any value otherwise than in USD shall be converted into USD at the prevailing market foreign exchange rate.

Income and expenses are allocated to the period in which they occurred.

Exchange Traded Securities

When an investment in an exchange traded security is made, the policy is to value it at the last closing price. The prices will be obtained from pricing vendors that publish the exchange prices where the security has its primary listing.

All positions that fall into this category must be individually reviewed at each Valuation Point and the methodology properly documented, explaining the approach taken. Furthermore, the valuation must be agreed with the Fund's external auditors on an annual basis.

Review

This valuation policy will be reviewed periodically, and at least once a year or before any Fund engages with a new investment strategy or type of asset.

Subscribers should take notice that by completing and executing the Subscription Application the Subscriber is entering into the following undertakings and giving the following warranties specified herein below:

- (1) The Subscriber irrevocably subscribes for the Investor Shares as specified in the Subscription Application as may be determined in accordance with the Articles of the Fund at the prevailing Subscription Price on the next Dealing Day following acceptance of this application by the Fund. The Subscriber understands that fractional shares may be issued (to two (2) decimal places).

In evaluating the suitability of an investment in the Fund the Subscriber has not relied upon any representations or other information (whether oral or written) other than as set forth herein.
- (5) The Subscriber has taken the advice of professional advisers who have sufficient knowledge and experience in financial and business matters to be capable of evaluating the merits and risks of this investment and the Subscriber is fully capable of assessing and bearing the risks involved in the Subscriber's own right or with the benefit of such professional advice received.
- (6) The Subscriber acknowledges the subscription restrictions as outlined herein.
- (7) The Subscriber agrees that they will not be issued with share certificates.
- (8) The Subscriber agrees that the Investor Shares hereby subscribed for will be held subject to the terms and conditions of the Articles of the Fund as amended from time to time and that the Fund will fully protect and indemnify its Directors, the Investment Manager, the Administrator, and the Depositary against liability for all acts taken on his or its behalf, except for acts involving negligence or misconduct.
- (9) The Subscriber fully appreciates the Fund's rights to accept or reject all applications for subscription at its sole discretion. In order to induce the Fund to accept this subscription, the Subscriber agrees, represents and warrants that the Investor Shares hereby subscribed for are not being acquired for the account of any person who is, directly or indirectly a US Person as defined in the Prospectus.
- (10) The Subscriber further agrees that no Investor Shares hereby subscribed for will at any time be directly or indirectly transferred to any person described above without first seeking written authority from the Fund for such transfer; that the Subscriber will promptly notify the Fund if and when the Subscriber should

- (11) The Subscriber agrees that no Investor Shares hereby subscribed for may at any time be transferred to any other person without first seeking the approval of the Fund in accordance with the provisions of the section herein entitled "*Purchase, Exchange and Transfer of Shares*".
- (12) The Subscriber acknowledges and accepts that this Subscription Application and application form is governed by Maltese law and hereby submits to the non-exclusive jurisdiction of the Courts of Malta.
- (13) The Subscriber confirms that, to the best of the Subscriber's knowledge and belief, the Subscriber's subscription moneys are not, in whole or in part, the proceeds of drug trafficking or any other criminal activity, nor do they represent, in whole or in part, directly or indirectly, such proceeds.
- (14) If the Subscriber is an individual person, or is a nominee for an individual person, he must warrant that he is, and the beneficial owners (if applicable) are, at the date of execution of this subscription application, the greater of eighteen (18) years of age, or the minimum age permitted to enter into a legally binding and irrevocable contract, such as the Subscription Application, in his, or the beneficial owner's country of residence.

- (16) The Subscriber acknowledges that it has read and understood the section headed "*Anti-Money Laundering*" in the Prospectus, and further acknowledges that the Fund, Administrator or other service provider to the Fund may be required by applicable laws and/or regulations to take further reasonable steps to establish the identity of the Subscriber or of any other person whom the Fund, Administrator or other service provider knows or has reason to believe is a person for whom or on whose behalf the Subscriber is acting and the Subscriber undertakes to co-operate with and assist the Fund, Administrator or other service provider in relation to such steps and the Subscriber acknowledges that the Fund, Administrator or other service provider shall be held harmless and indemnified by the Subscriber against any loss arising as a result of a failure to process the subscription application if any information required by the Fund, Administrator or other service provider has not been provided by the Subscriber. In this context the Subscriber hereby agrees that it will provide the relevant information requested under "*Client Verification Requirements*" shown herein below and is attached to the subscription application form in the investor booklet.
- (17) If the Subscriber wishes to redeem his investment but the information has not been provided, the redemption will be acted upon but no monies will be paid to the Subscriber until the Administrator is in receipt of said information. Instead, the monies will be held in the Subscriber's name at the Fund's account

and the Subscriber will bear all associated risks.

- (18) The Subscriber confirms that, if it is a "Designated Body" (which is a bank, insurance Fund, or other financial institution, or financial intermediary, which is domiciled in an OECD or FATF approved jurisdiction and is regulated by an approved regulated body), subscribing for on behalf of another person, it has verified the identity of that other person in accordance with applicable anti-money laundering laws and/or regulations.
- (19) The Subscriber consents to the release by the Remitting Bank/Financial Institution to the Fund and/or the Administrator or other service provider of all evidence of the Subscriber's identity which said bank/financial institution shall have retained. The Subscriber agrees that such evidence may further be furnished by the Fund and/or the Administrator to any other service provider to the Fund upon request, to enable such other service provider to meet its obligations under applicable laws and/or regulations.
- (20) The Subscriber hereby authorises the Fund and the Administrator to obtain verification of any information provided by the Subscriber as part of its subscription application.
- (21) The Subscriber agrees to provide any other information that may be required from time to time in compliance with relevant regulations.
- (22) The Subscriber agrees that, in line with current anti-money laundering requirements, the Administrator is obliged to pay redemption proceeds into the account at the Remitting Bank from which the original subscription was made. Exceptions to this may be made, if the Subscriber can show justification for the change of bank and providing the bank account is in the name of the Subscriber and the bank is situated in the Subscriber's country of residence. Subscribers should be aware that suspicious events are reportable, under the International Anti-Money Laundering Regulations and, by way of example, failure to provide justification for the change of bank account, or a request to pay the proceeds into a bank account in a jurisdiction which the subscriber is not a resident could be deemed suspicious and therefore would be reportable under the regulations and may cause the payment to be delayed or refused.
- (23) The Subscriber acknowledges that all information supplied by us to the Administrator will be subject to the protections of data protection legislation. The Subscriber further acknowledges that, should it be necessary, either to fulfil a legal requirement or to facilitate the efficient execution of the administrative functions, that data supplied may be transferred, to the extent necessary and in compliance with data protection legislation.

23. Malta Investment Services Act

The Fund falls within the definition of a collective investment scheme in terms of the Investment Services Act, 1994 (the “ISA”) and qualifies as an “UCITS Scheme” in terms of rules issued by the MFSA. Accordingly, it must be licensed under the ISA and is subject to detailed regulation by the MFSA.

The Directors, if requested to do so, must give to MFSA access to or provide at any reasonable time all records relating to the Fund and the MFSA may copy or take an extract of a record which it is given access to. Failure to comply with these requests by the MFSA may result in substantial fines being imposed on the Directors and may result in the MFSA Fund revoking the licence of the Fund and/or applying to court to have the Fund wound up.
